Accuratus 10322 - Mini Layout Bluetooth® Wireless, Rugged Keyboard with Internal Rechargeable Lithium Battery

About

The Accuratus DSS10322 is a mini slim-line keyboard with a ruggedized design, being rigid, splash proof and wipeable. The DSS10322 has a durable silicone body with carbon on gold key technology like many our other silicone keyboards, meaning the keys are responsive, accurate and have a tactile feel to them. Perfect for portable use, the keyboard has a Bluetooth® wireless connection with a range of 10 metres and an integral rechargeable lithium ion battery.

The DSS10322 is ideal for many situations such as; mobile use, factories, in vehicle use, police cars, car garages, warehouses, workshops, laboratories, food environments, boats, home, the list goes on.
