Accuratus S78A - USB Mini EPOS Keyboard with MSR, Keylock and 78 Fully Programmable Cherry MX Keys

Specifications

- USB connection - Plug and Play (once programmed no drivers or software are required)
- Detachable USB cable
- Black case and keycaps
- Mini keyboard size
- 78 Relegendable fully programmable keys, 13 (columns) x 6 (rows) key matrix
- Key layout can be changed using double and quad keys
- Cherry MX Black mechanical keys for extremely long life, perfect for EPOS environments
- Each programmable key can have upto 8 layers of different programming
- The keyboard is fully programmable with our free Matrix software, this allows full programing of all features on the keyboard (Keys/MSR/Keylock). The programming is stored inside the keyboard, once programmed the keyboard can be plugged into another computer and all programming will still be the same, the programming software does not need to be installed on every computer.
- Multi-level keylock with 6 settings (Lock, Op, X, S, Z and Prg)
- 3 Track fully programmable MSR - Complies with ISO7812, IBM standards and American driving license
- True keyboard wedge function
- Caps,Scroll and Num lock functions are independent of other keyboards connected
- Internal metal plate for increased protection against ESD
- Compact and slim design
- White/Brown box environmentally friendly packaging

Keyboard Physical Specifications

- Dimensions: 290 x 170 x 47 mm (l x w x h)
- Weight: 1Kg
- Cable Length: 2.05M
