Accuratus Bio M100 Multidevice Wireless Mouse - Multidevice Dual Bluetooth 5.1 & RF 2.4GHz Wireless Full Size Biodegradable Plant Based Resin Mouse

About

Introducing the brand new BIO M100 Multi-device Wireless Mouse, an eco-friendly twist on a customer favourite model. The BIO M100 features all the same high spec features as the M100, but is made from our new signature wheatgrass bio plastic plant based resin. Now you can enjoy all the comfort and ease of an M100 mouse, with the added benefit of its housing being fully biodegradable.

Contoured for universal comfort and engineered for smooth optical tracking, this mouse is a performer on a world stage. Currently available in black, blue, green and a chalk white finish which subtly shows the natural wheat fibres, the mouse offers sleek styling matching up with your style. The Bio100 is a full size mouse with multi device dual Bluetooth 5.1 and RF 2.4GHz wireless connectivity meaning you can hot swap quickly between paired devices such as a PC, Mac and tablet or phone and offering connectivity via two Bluetooth connections or Wireless RF (Using a supplied Nano sized Receiver).

What is Bioplastic?

For several years, Accuratus has worked to create a fully biodegradable bioplastic. After extensive research and testing we are proud to reveal the CA-BIO02-2023Rev2 Bioplastic, made using wheatgrass and formed from a natural polymer called lignin, which is found in straw. The straw is broken down by bacteria and then mixed with natural sugars, becoming a workable material with similar properties to plastic – without the use of any artificial chemicals or fossil fuels. The result is a range of stylish, high-quality products, with all the quality of life features you've come to expect from Accuratus.

Specifications

- Wireless Dual Bluetooth 5.1 & RF connection (Bluetooth receiver not included, Nano sized RF receiver included)
- Upto 10M of wireless freedom
- Plastic Free housing - Biodegradable plant based resin case made from our signature wheatgrass bioplastic. At the end of the products life the case can be easily removed so that it can be biodegraded / composted. The PCBA and wire can also be easily be removed and recycled.
